“ I would say the HR functionality was definitely a welcome change. HR is not my background, and because we are a small business, we can't hire for every single department. So having that functionality definitely helps save us in the ballpark of about \$50-60k a year for a full-time person. ”

Kim Cacace
Director of Finance, The MAX Challenge

Award-winning mobile app facilitates employee self-service.

The ADP Mobile Solutions App makes it easy for your employees and managers to access their own information, including pay data, PTO, retirement and benefits information, helping to reduce the number of questions you'll receive.

Using the ADP Mobile Solutions App, employees can:

- Check pay statements and view W-2s
- View time-off balances and submit/approve requests
- Clock in/out and submit time sheets
- Enroll in benefits and make elections

“ADP is not just payroll. To find out I could get my background checks done, that I could get HR tools like manuals and job descriptions helps me understand I have a resource for so many things. Now, I would go to ADP first to see if they could help me with anything I need for my business.”
