

# Introducing the new ADP Workforce Now®

"We are now on the latest version of ADP Workforce Now, which has completely changed our workflow – just the ease of which you can bring people in and how you can manage them in terms of their benefits and their payroll ... The new ADP modules has really helped me empower my managers and well as our employees."

– Maxine Hart,  
Chief Human Resource Officer,  
Reading Cooperative Bank

"With ADP Workforce Now, everything is one database so it's simple to use. You input it once and it streamlines to timecards, recruitment, performance, terminations, and everything else. But everything is very seamless, so that one database has been very valuable for us."

– Monica Baker,  
SVP, PyraMax Bank

By now, you've likely heard that we've redesigned ADP Workforce Now to better transform how great work gets done. We're confident the improvements that come with the new and enhanced platform will greatly help your workforce thrive, and hope you'll continue our partnership to see it for yourself. Just some of the benefits include:

- **You grow, we grow:** As your company transforms, you need a platform that can evolve with you. It's so important to us that we invest \$750M annually into research and development and consult with valued clients like you to continuously build the award-winning ADP Workforce Now.
- **We stick together:** Our partnership is important to us, and we hope we've proven that to you throughout your experience as an ADP® client. Our dedication to your success hasn't changed – we'll continue to work hard to earn your business every day.
- **Get a one-stop-shop:** We believe in creating seamless experiences to help you work better, which is why we've designed one platform that allows you to manage your workforce within a single, open system, regardless of whether they're in Canada or the U.S.
- **Keep your data:** You'll still have access to your historical data, enabling you to easily obtain information for records management and future analysis.
- **You're safe with us:** That data we just talked about? It continues to be secure and protected. In fact, we invest \$70M annually into our security, abide by all applicable privacy regulations and binding corporate rules and have tier IV data hosting.
- **We're here for you:** Supporting your business is one of our top priorities. An effortless service experience, provided by a dedicated team, means you can spend less time solving issues and get more time back in your day.
- **A familiar face:** We already know where your company has been, where you are today and where you'd like to go. When you stick with us, we'll help you facilitate change management within your organization and continue to save you time and resources throughout the process.
- **We just get you, Canada:** We understand the Canadian business landscape – like bilingual requirements, cultural considerations, legislative and compliance complexities – because we've been here ourselves for 40 years. Combined with our general industry expertise, we're the ideal partner for businesses operating in Canada.
